Lead Time on Environmental Restoration Documents

J.M. Kersh, Associate General Manager
Environmental Restoration and Waste Management
EG&G Rocky Flats, Inc

EG&G's performance in respect to meeting document delivery deadlines has not been responsive to an April 19 1990 memo, subject as above. It is not acceptable to continue the practice of delivering documents in final form on the due date or one day prior to the required submittal date to EPA/CDH. (Latest examples are the 881 Hillside, SOP's, QAP's and Health and Safety Procedures.) This review period is insufficient for DOE management review

Please refer to the April 19 1990 memorandum, and note that DOE requested that all documents be delivered to the appropriate managers for distribution ten (10) working days prior to IAG deliverable dates. Also note, that these documents are to be in final form for DOE management review and that such submission shall have confirmation attached indicating EG&G management has reviewed and approved the accuracy and quality of the product.

Please respond to this memorandum in writing by September 15 1990 indicating how this will be handled. If you have any questions please feel free to contact Rich Schassburger at extension 4888
